Hi Emily,

The changes to Section 6 are just fine. If you could sign on your end first, that would be great. Our Director, Brian Roe (cc'd here), will sign on behalf of the University.

I will be out of the office for the next week, but Brian will be able to assist in the interim. I'll be back in the office on the 11th.

Subject: Memo: Industry Funding – Huawei, IBM, Intel

Dear Colleagues:

Our school is fortunate to receive millions of dollars in industry support for our world-class research. Recently, we have received agreements from Huawei Technologies, IBM, and Intel that blur the line between gift funding and sponsored search contracts. These details cause a delay in receiving the funding and

potentially a misrepresentation of the intent of the funds. In an effort to expedite UCLA Samueli agreements, please include [Blair McBirney](#), Director of Corporate Relations, on any funding opportunities that involve Huawei, IBM, or Intel early in your discussions. Campus is navigating a complex relationship with these companies. Blair will represent you with development and the sponsored research department at TDG to navigate next steps and ensure a smooth transfer of funds.

For more information about the difference between contracts, grants and gifts, please see this [video presentation](#) by development and TDG. Slides are attached.

Sincerely,
Jayathi

Hi Stephen,

I look forward to seeing you tomorrow. How about we meet at the Engineering VI building lobby at 11:15am. Engineering VI is located directly across the street from the Luskin Conference Center (where you will be tonight for the dinner). I also plan to be at the dinner (only briefly, I can't stay for the entire dinner) and hope to see you there as well.

My cell phone number is [REDACTED] should you have any trouble tomorrow.

Warm regards,
Brandon

Brandon Baker

Subject: 答复: Thursday meeting?

Importance: High

Blair and Brandon,

Sorry I didn't send out a reply before I started my drive this morning. I just checked in to [REDACTED]. I was waiting for others to give me pointers on professors I should try to visit.

What Blair suggested sounds great. I can go over to Brandon's office at 11:30 or 11:15 if it is ok.

Best regards
stephen

Stephens-

Nice to e-meet you and thank you to Rhiannon for the introduction. We are looking forward to having you tomorrow at the Luminaries Dinner.

Unfortunately, I will be out of the office Thursday. My colleague, Brandon Baker, Assistant Dean of External Affairs, is happy to meet on my behalf. He has flexibility in the morning. Perhaps we can arrange for you and Brandon to meet before your lunch with George Varghese? Brandon can show you to George's office after the meeting.

Are there other UCLA meetings we can help facilitate during your visit?

Best,
Blair

Re: Industry Funding – Huawei, IBM, Intel

Our school is fortunate to receive millions of dollars in industry support for our world-class research. Recently, we have received agreements from Huawei Technologies, IBM, and Intel that blur the line between gift funding and sponsored search contracts. These details cause a delay in receiving the funding and potentially a misrepresentation of the intent of the funds. In an effort to expedite UCLA Samueli agreements, please include [Blair McBirney](#), Director of Corporate Relations, on any funding opportunities that involve Huawei, IBM, or Intel early in your discussions. Campus is navigating a complex relationship with these companies. Blair will represent you with development and the sponsored research department at TDG to navigate next steps and ensure a smooth transfer of funds.

For more information about the difference between contracts, grants and gifts, please see this [video presentation](#) by development and TDG. Slides are attached.

Hi Blair,

Greetings from cloudy Illinois! Thanks for your note. Yes, I'll send your note to Susan with a request that she get in touch, and we'll get you in the system as the point of contact for UCLA so that you're in the loop earlier in the process. As large and decentralized as universities are, Huawei is too, so we struggle with the same issues. But we'll definitely keep an eye on it and will strive to improve the process on our end.

Best,
Rhiannon

To: Rhiannon Clifton <Rhiannon.Clifton2@huawei.com>
Subject: FW: 答复: Collaboration of Automatic Model-based test generation for Network Control Planes

Hi Rhiannon-

Greetings from Los Angeles. I hope things are going well since the conference. I know UCLA is not technically one of your schools, but I'm hoping that you can point me in the right direction. I am still dealing with the project we discussed at Cisco (with the odd funding amount and open source license request), and unfortunately, I find myself playing middle man. From the Huawei perspective, is there a way for me to be tagged as the primary manager for UCLA so I get looped in from the beginning? You mentioned that your colleague Susan oversees west coast schools, could you help me to make that connection?

I know these things take time, and I don't want to be a road block to the faculty receiving funding. If we can ensure both sides are using approved language from the beginning we will be able to expedite. Let me know if you want to chat this out more.

Thanks!
Blair

Hi Maria,

Sure, we can use the new template to draft gift letter if you prefer but we still need to go through our lawyer to check the letter so this may take some time.

I noticed that in Blair's email, she mentioned gift amount round up. I'm afraid this probably is not the case here. The total amount comes from George's initial proposal plus 6.5% management fee and it has gone through several internal processes (report meetings, internal "paper works", etc.), if we propose any amount change, we'll need to provide new materials, explain the reason, etc. and go through the whole process again. At current stage, I propose we stick to the amount originated from George's proposal. I hope you understand. But if you have any questions, please let me know.

Thanks,

+Maria

Hi George, Maria,

I want to clarify that the number comes from the proposed budget plus the 6.5% school management fee based on input from Maria. Once this is confirmed from you, Alex(Shixin) will start draft the gift letter. Sorry this has taken long and we have one more step that need your confirmation. We have report meetings for collaboration projects twice every month, we hope we can catch the end of March report meeting for the project if we can get the confirmation from you this week. ☺

Thanks,

Subject: Collaboration of Automatic Model-based test generation for Network Control Planes

Dear Varghese,

Glad to contact you again. I am the collaboration manager from Huawei CSI, and will handle the project of Automatic Model-based test generation for Network Control Planes.

In fact, I think we have reached an agreement on Cost, BIPR/FIPR, Payment, Tax and Duration of redemption. But we still need your confirm on that. Once you feedback, I will start to draft the gift letter.

Attachment is the detail information. Looking forward to your reply.

Best regards,
Alex

Subject: RE: 答复: Collaboration of Automatic Model-based test generation for Network Control Planes

For the sake of time, if they just want to remove the line from the letter about licensing then it should be okay to process as a gift.

Moving forward, can you please loop me into any funding conversation that involves Huawei at the very beginning? They are a complex funder, and UCLA has many separate projects with them. It will be helpful to keep everything streamlined.

Hi Maria,

Sure, we can use the new template to draft gift letter if you prefer but we still need to go through our lawyer to check the letter so this may take some time.

I noticed that in Blair's email, she mentioned gift amount round up. I'm afraid this probably is not the case here. The total amount comes from George's initial proposal plus 6.5% management fee and it has gone through several internal processes (report meetings, internal "paper works", etc.), if we propose any amount change, we'll need to provide new materials, explain the reason, etc. and go through the whole process again. At current stage, I propose we stick to the amount originated from George's proposal. I hope you understand. But if you have any questions, please let me know.

Thanks,
--Wei

Hello Wei,

I received updated information from our Director of Corporate Relations who indicated that she has met with a Huawei representative that approves the template letter attached.

Could you please provide a letter to her per the template.

Thank you,

Maria

Hi George, Maria,

I want to clarify that the number comes from the proposed budget plus the 6.5% school management fee based on input from Maria. Once this is confirmed from you, Alex(Shixin) will start draft the gift letter. Sorry this has taken long and we have one more step that need your confirmation. We have report meetings for collaboration projects twice every month, we hope we can catch the end of March report meeting for the project if we can get the confirmation from you this week. ☺

Thanks,
--Wei

Blair,

Even better—thanks for confirming the name. I'll update our records to reflect simply *Huawei Technologies*.

The dinner will be on April 25. We had initially planned for the Chancellor's residence though, due to space, it will now be held at the Luskin Conference Center on the Centennial Terrace. (Amazing that we needed additional space to accommodate our \$1M+ supporters—not a bad problem to have, right?)

I'll make sure to provide you with two invites so you can share with the CEO and the CTO. We should have them in-hand in the next week or so.

Thanks Katie!

For the honor roll name, please use Huawei Technologies

I think the personal note from the Chancellor is lovely! I actually met with the Huawei technical fellow who represents the CEO and CTO last week, and he is looking forward to receiving the invitation. Can you confirm the date again?

Subject: Honor Roll: Huawei

Blair,

Sorry for the delay in checking back with you on the Luminaries Dinner and the Honor Roll. It's been an intensive process, to say the least!

As mentioned, I'd appreciate your help with confirming the listing for Huawei Technologies for the Centennial Campaign Honor Roll. They are currently set to be listed as:

Huawei Technologies Co. Ltd.

Are you able to check with someone from their office(s) who can confirm if this is the appropriate way to recognize the company? We are looking to finalize the text for the Honor Roll in the next two weeks. I've attached an email I sent to a representative from Avon, in case it's helpful for your outreach.

Also, I have pulled their invitation from the main send that will drop in about two weeks so

that you can handle it personally.

I know one of your concerns was regarding who would extend the invitation, given the customs in China. One element worth noting: the dinner itself is being hosted by the Chancellor and Mrs. Block and there is a short note from the two of them on the inside the invitation. Not sure if that will suffice though it may be helpful context.

Thanks for your help!

Katie

On Feb 13, 2018, at 8:22 AM, Lee Yang <lyang@seas.ucla.edu> wrote:

Hi Professor Cong,

UCLA is able to process payment to Georgia Tech via a Requisition through BruinBuy. We would process an "R" class order coding the collaborative services as Professional Services (3455). Purchasing would review the requisition based on the fund categorization. Accounts Payable would need an invoice from Georgia Tech to issue payment.

However, in review of the request below, UCLA will not be able to issue a contract to Georgia Technology using your Various/Domain-Specific Computing Research Funds under FAU 442511-C4-44053 as the fund designation for 44053 state, "To provide unrestricted research support for Professor Jason Cong in the filed of Customizable Domain-Specific Computing." Fund number 44053 falls under the fund category for Private Gifts from Regents/Foundation. Funds are classified as gifts when the donor does not impose contractual requirements and when funds are awarded irrevocably. Funds are classified as grants when the following characteristics exist:

- provision for audits by or on behalf of the grantor;
- the grantor is entitled to receive some consideration such as a detailed technical report of research results or a report of expenditures;
- testing or evaluating of proprietary products is involved;
- the research is directed to satisfying specific grantor requirements (e.g., terms and conditions stating a precise scope of work to be done rather than a general area of research);
- a specified period of performance is prescribed or termination is at the discretion of the grantor;
- funds unexpended at end of period shall be returned to the grantor;
- patent rights requested by grantor.

Chapter 9-500: Distinguishing Between Private Gifts and Grants for Research

<http://www.ucop.edu/research-policy-analysis-coordination/resources-tools/contract-and-grant-manual/chapter9/chapter-9-500.html>

As such with Georgia Tech's request for a contract, the question would arise as to whether the funding should be further reviewed by TDG for final determination if funds are in fact private gifts or contract/grant funding to be assessed overhead.

I'm not too familiar with MOUs, however, perhaps Brandon's office could assist if you'd like to explore that option. Other than that, Huawei could work direction

with Georgia Tech. We could request a partial refund to Huawei with the explanation for the return of funds. Or Huawei could reduce UCLA's future funding to be allocated to Georgia Tech. Please let me know if you have any questions or concerns. I can be reached at x61066.

Thank you,
Lee

Alexandra,

Okay, I get the part about Huawei, however, at Georgia Tech the only way to complete an agreement with UCLA would be for both organizations to sign a contract. That would entail a SOW from us. Without a signed contract GT cannot send an invoice without a contract in place. Please advise if this is the route you want to go.

Carlos.

Subject: Re: Huawei funding

Hi Wanda & Carlos,

I talked to our External Affairs staff and he said you shouldn't be concerned with the company Huawei. They signed an agreement with Prof. Cong and your university or Prof. Sarkar is not on the agreement. They gave funding to Prof. Cong on his various donors account to support CDSC (Center for Domain-Specific Computing).

The \$60,000 for this year that Prof. Cong agrees to give to Prof. Sarkar is an agreement between them only not Huawei, and the only way we can get it to him is to do a requisition and once that's approved then you can invoice us for payment. Their intention is to pay a graduate student researcher for this joint research.

I hope this clears it up for you.

Thank you for your help.

Center for Domain-Specific Computing Consortium Membership Agreement

This Agreement ("Agreement") is made and entered into by and between The Regents of the University of California on behalf of its Los Angeles campus ("University") and Members identified as signatories to this agreement (hereinafter "Member" or "Members") and is effective as the date of the first signature ("Effective Date"). This Agreement will govern the terms and conditions of Member's membership in the Center for Domain-Specific Computing ("CDSC").

1. Background and Research Areas

To meet ever-increasing computing needs and overcome power density limitations, the computing industry has entered the *era of parallelization*, with tens to hundreds of computing cores integrated into a single processor; and hundreds to thousands of computing servers connected in warehouse-scale data centers. However, such highly parallel, *general-purpose* computing systems still face serious challenges in terms of performance, energy, heat dissipation, space, and cost. In this consortium we look beyond parallelization and focus on *domain-specific customization* as the *next disruptive technology* to bring orders-of-magnitude power-performance efficiency improvement to important application domains. The current research emphasizes on accelerator-rich architectures, from single-chip design, to server node integration, and to data-center level deployment. At the same time, CDSC is developing the automated compilation and runtime software to enable efficient programming and application development on such accelerator-rich architectures.

The broader impact of this consortium will be measured by the new digital revolution enabled by customized computing. We will demonstrate the feasibility and advantages of the proposed research in the domain of healthcare, given its significant impact on the national economy and quality of life issues. In particular, we focus our effort on *revolutionizing the role of medical imaging, computational genomics, and personalized cancer treatment in healthcare*, providing much more cost-efficient, convenient solutions for preventative, diagnostic, and therapeutic procedures to dramatically improve healthcare quality, efficiency, and patient outcomes. The broader impact of this consortium also includes the integration of research and education, exposing graduate, undergraduate, and high school students to the new concepts and research from this project via several new courses jointly developed and shared by researchers in the Center for Domain-Specific Computing (CSDC). Summer research fellowship programs to support high school and undergraduate students will be provided by CSDC. Our goal is to train a new generation of students who are prepared for customized parallelization and computing, and can effectively apply such techniques to many areas of our society, thus furthering the digital revolution. Special efforts are being made to attract underrepresented students at all levels via partnerships with campus organizations focused on diversity, such as the UCLA Center for Excellence in Engineering and Diversity.

2. Term and Termination

This Agreement will remain in effect for three (3) years from the Effective Date ("Term") or until terminated by all Members, whichever occurs first. University may terminate the Agreement at any time with thirty (30) days notice to Members. Any Member may terminate their participation in the CDSC for convenience by providing written notice of such termination to University ("Notice of Termination"). Termination will be effective ("Effective Date of Termination") thirty (30) days from

receipt of Notice of Termination. The terminating Member shall pay Annual Membership Fees up to but not beyond Effective Date of Termination and shall be released from paying Annual Membership Fees in subsequent years. The provisions of Article 7, Confidentiality, will continue to be binding following termination.

3. Annual Membership Fee

Basic Membership

During the Term, any basic level member ("Basic Member") will provide to University a yearly payment of \$75,000 for its membership in CDSC ("Basic Annual Membership Fee"). From time to time, during the Term, CDSC may increase its membership fees. However, Basic Member's Annual Membership Fee will not be increased during the Term. Any change to Basic Member's Annual Membership Fee will not apply to previous membership periods, and can only be made by written amendment to this Agreement by duly authorized representatives of University and Member.

Gold Membership

During the Term, any gold level member ("Gold Member") will provide to University a yearly payment of \$150,000 for its membership in CDSC ("Gold Annual Membership Fee"). From time to time, during the Term, CDSC may increase its membership fees. However, Gold Member's Annual Membership Fee will not be increased during the Term. Any change to Gold Member's Annual Membership Fee will not apply to previous membership periods, and can only be made by written amendment to this Agreement by duly authorized representatives of University and Member.

The Annual Membership Fee for Member shall be due annually based on the anniversary of the Effective Date. Checks shall be made payable to UC Regents, indicating the purpose of the payment ("CDSC Membership"), should be sent to:

UCLA Engineering
Office of External Affairs
Attn: Brandon Baker, Executive Director
7256 Boelter Hall, Box 951600
Los Angeles, California 90095-1600

Or by wire transfer to the following account:

Bank of America
Client Fulfillment & Service
CA4-704-05-41, Building D
2000 Clayton Road
Concord, California 94520

ABA Routing No.: [REDACTED]
Bank Account Name: UC Regents
Bank Account No: [REDACTED]
Swift Code (for international transfers): [REDACTED]

In addition to the banking information, to ensure that the money is properly routing within the University, Sponsor shall provide their bank with the following information in connection with each wire transfer hereunder:

Purpose of Wire Transfer: CDSC Membership

UCLA Point of Contact: Brandon Baker, Executive Director

Telephone: 1-310-206-5303

Email: bbaker@support.ucla.edu

In the event that Member opts to submit any payment required hereunder via wire transfer, Member shall notify University at least three (3) business days prior to an impending transfer and shall pay all banking fees and/or other costs associated with such transfer.

University will provide an annual financial summary report of expenditures and appropriations of funds to Member.

4. Program Management

- a. CDSC shall be directed by the CDSC management team, consisting of Dr. Jason Cong (director and PI) and 2-3 other faculty members at UCLA ("Management Team") and advised by the CDSC Advisory Board ("Board"). Representation on the Board is limited to two representatives (one primary and one alternate) of each Gold Member.
- b. CDSC intends to use Open Source under the BSD license to disseminate its research results.
- c. Members shall have the opportunity to advise on the research topics, community outreach, and open source management of CDSC through representation on the Board.
- d. Priorities for the use of funds will be set by the Management Team with advisement from the Advisory Board. The Management Team will be the PI and co-PIs for funds managed at UCLA under this agreement.

5. Membership Eligibility and Benefits

- a. All corporations and organizations with interest in CDSC research areas are eligible for membership. The CDSC Management Team may, subject to U.S. and State of California law and University of California policy, change or make exceptions to the eligibility criteria.
- b. Member will receive the following benefits in consideration of its support. These benefits will extend, upon Effective Date of this Agreement through the Term unless terminated earlier, to related companies of Member who agree to be bound by the terms of this Participation Agreement and who relate through at least 50% ownership-in-common with the Member:

All Members

- i. Each Member will receive all new and electronically archived CDSC technical reports, including theses and papers appearing in peer reviewed literature, as they are published, either by electronic means, or upon request, via hardcopy or physical electronic storage media.

- ii. Invitation to attend semi-annual research review meetings to review, assess, critique, and advise on recent, not yet published or publishable, research results.
- iii. The right to use and disclose, subject to University's valid copyright and patent rights, all reports, data, and information made available by CDSC, so long as CDSC is acknowledged as the source of this information, and Confidential Information is protected according to Article 7.
- iv. The opportunity to sponsor and fund separate projects with CDSC researchers after mutual agreement. Any joint or collaborative research conducted between the parties shall be defined and governed by such separate Sponsored Research Agreements. Intellectual property rights to inventions arising under such sponsorship will be defined by such separate agreement.

Gold Members

- i. All of the above rights for all Members.
- ii. Opportunity to influence the activities of CDSC through representation on the Board.
- iii. The opportunity to send a Visiting Scientist ("Visitor") to CDSC for in-residence research sponsored and advised by a specific CDSC researcher at University, with a separate agreement and fees to be negotiated by the site. A Visitor is a full-time employee of the Member, paid by the Member, with health insurance and other benefits provided by the Member, who participates in research projects under the direction of a CDSC principal investigator from University.

6. Confidentiality

- a. Proprietary materials and information will not be exchanged under this Agreement. All information exchanges will be deemed non-confidential. If needed, confidential information may be exchanged under separate a Confidential Disclosure Agreement between applicable parties.

7. Publication

Publications of the consortium are expected to include meeting documentation, interoperability recommendations, summaries of research, etc. Members shall have the right to copyright, publish, disclose, disseminate and use, in whole and in part, any data and information developed under this Agreement.

8. Use of Names

Members agree that they will not use the name of any other Member or its employees in any advertisement, press release or publicity with reference to this Agreement or any product or service resulting from this Agreement, without prior written approval of the other party.

9. Notices

Any notice to be given hereunder will be in writing and sent to authorized institutional representative identified by the party in the signature block.

10. Integration

This Agreement states the entire contract between the parties in respect to the subject matter of the Agreement and supersedes any other written or oral representations, statements, negotiations, or agreements. This Agreement may be modified only by written amendment executed by authorized representatives of both parties. The parties may sign this Agreement in one or more counterparts, each of which constitutes an original and all of which together constitute the Agreement. Facsimile and signatures shall constitute original signatures for all purposes.

IN WITNESS WHEREOF, the parties hereto have caused this Agreement to be executed by their duly authorized representatives.

Thanks, Lee.

Alex, I suggest that you explain to GeogiaTech that we can process payment request, but not able to execute a contract due to the gift/grant restriction. Please ask if there is any reason that they need a contract.

On Feb 13, 2018, at 8:22 AM, Lee Yang <lyang@seas.ucla.edu> wrote:

Hi Professor Cong,

UCLA is able to process payment to Georgia Tech via a Requisition through BruinBuy. We would process an "R" class order coding the collaborative services as Professional Services (3455). Purchasing would review the requisition based on the fund categorization. Accounts Payable would need an invoice from Georgia Tech to issue payment.

However, in review of the request below, UCLA will not be able to issue a contract to Georgia Technology using your Various/Domain-Specific Computing Research Funds under FAU 442511-C4-44053 as the fund designation for 44053 state, "To provide unrestricted research support for Professor Jason Cong in the filed of Customizable Domain-Specific Computing." Fund number 44053 falls under the fund category for Private Gifts from Regents/Foundation. Funds are classified as gifts when the donor does not impose contractual requirements and when funds are awarded irrevocably. Funds are classified as grants when the following characteristics exist:

- provision for audits by or on behalf of the grantor;
- the grantor is entitled to receive some consideration such as a detailed technical report of research results or a report of expenditures;
- testing or evaluating of proprietary products is involved;
- the research is directed to satisfying specific grantor requirements (e.g., terms and conditions stating a precise scope of work to be done rather than a general area of research);
- a specified period of performance is prescribed or termination is at the discretion of the grantor;
- funds unexpended at end of period shall be returned to the grantor;
- patent rights requested by grantor.

Chapter 9-500: Distinguishing Between Private Gifts and Grants for Research

<http://www.ucop.edu/research-policy-analysis-coordination/resources-tools/contract-and-grant-manual/chapter9/chapter-9-500.html>

As such with Georgia Tech's request for a contract, the question would arise as to whether the funding should be further reviewed by TDG for final determination if funds are in fact private gifts or contract/grant funding to be assessed overhead.

I'm not too familiar with MOUs, however, perhaps Brandon's office could assist if you'd like to explore that option. Other than that, Huawei could work direction

with Georgia Tech. We could request a partial refund to Huawei with the explanation for the return of funds. Or Huawei could reduce UCLA's future funding to be allocated to Georgia Tech. Please let me know if you have any questions or concerns. I can be reached at x61066.

Thank you,
Lee

Subject: Re: Huawei funding

I'd like to hear Brandon and Lee's comments what's the best way to do it. We do have a plan to spend \$60K/year for some research task to be performed at Prof. Sarkar's group at Georgia Tech out of the CDSC membership contribution from Huawei. Prof. Sarkar is a member of CDSC.

-Jason

On Feb 7, 2018, at 8:44 AM, Alexandra Luong <alexl@cs.ucla.edu> wrote:

Hi Jason/Lee/Brandon,

For your update, Georgia Tech is asking for UCLA to sign a contract in order to give them the \$60,000 (gift fund originally from Huawei's agreement to Jason for \$500,000).

Jason, please confirm if this is the route you want to take.

Lee, can you advise what's the next step to take, I should contact Flora O'Brien regarding subcontract since it's from UCLA

to Georgia Tech?

Thank you for your help.

Alexandra,

Okay, I get the part about Huawei, however, at Georgia Tech the only way to complete an agreement with UCLA would be for both organizations to sign a contract. That would entail a SOW from us. Without a signed contract GT cannot send an invoice without a contract in place. Please advise if this is the route you want to go.

Carlos.

Subject: Re: Huawei funding

Hi Wanda & Carlos,

I talked to our External Affairs staff and he said you shouldn't be concerned with the company Huawei. They signed an agreement with Prof. Cong and your university or Prof. Sarkar is not on the agreement. They gave funding to Prof. Cong on his various donors account to support CDSC (Center for Domain-Specific Computing).

The \$60,000 for this year that Prof. Cong agrees to give to Prof. Sarkar is an agreement between them only not Huawei, and the only way we can get it to him is to do a requisition and once that's approved then you can invoice us for payment. Their intention is to pay a graduate student researcher for this joint research.

I hope this clears it up for you.

Thank you for your help.

Center for Domain-Specific Computing Consortium Membership Agreement

This Agreement ("Agreement") is made and entered into by and between The Regents of the University of California on behalf of its Los Angeles campus ("University") and Members identified as signatories to this agreement (hereinafter "Member" or "Members") and is effective as the date of the first signature ("Effective Date"). This Agreement will govern the terms and conditions of Member's membership in the Center for Domain-Specific Computing ("CDSC").

1. Background and Research Areas

To meet ever-increasing computing needs and overcome power density limitations, the computing industry has entered the *era of parallelization*, with tens to hundreds of computing cores integrated into a single processor; and hundreds to thousands of computing servers connected in warehouse-scale data centers. However, such highly parallel, *general-purpose* computing systems still face serious challenges in terms of performance, energy, heat dissipation, space, and cost. In this consortium we look beyond parallelization and focus on *domain-specific customization* as the *next disruptive technology* to bring orders-of-magnitude power-performance efficiency improvement to important application domains. The current research emphasizes on accelerator-rich architectures, from single-chip design, to server node integration, and to data-center level deployment. At the same time, CDSC is developing the automated compilation and runtime software to enable efficient programming and application development on such accelerator-rich architectures.

The broader impact of this consortium will be measured by the new digital revolution enabled by customized computing. We will demonstrate the feasibility and advantages of the proposed research in the domain of healthcare, given its significant impact on the national economy and quality of life issues. In particular, we focus our effort on *revolutionizing the role of medical imaging, computational genomics, and personalized cancer treatment in healthcare*, providing much more cost-efficient, convenient solutions for preventative, diagnostic, and therapeutic procedures to dramatically improve healthcare quality, efficiency, and patient outcomes. The broader impact of this consortium also includes the integration of research and education, exposing graduate, undergraduate, and high school students to the new concepts and research from this project via several new courses jointly developed and shared by researchers in the Center for Domain-Specific Computing (CSDC). Summer research fellowship programs to support high school and undergraduate students will be provided by CSDC. Our goal is to train a new generation of students who are prepared for customized parallelization and computing, and can effectively apply such techniques to many areas of our society, thus furthering the digital revolution. Special efforts are being made to attract underrepresented students at all levels via partnerships with campus organizations focused on diversity, such as the UCLA Center for Excellence in Engineering and Diversity.

2. Term and Termination

This Agreement will remain in effect for three (3) years from the Effective Date ("Term") or until terminated by all Members, whichever occurs first. University may terminate the Agreement at any time with thirty (30) days notice to Members. Any Member may terminate their participation in the CDSC for convenience by providing written notice of such termination to University ("Notice of Termination"). Termination will be effective ("Effective Date of Termination") thirty (30) days from

receipt of Notice of Termination. The terminating Member shall pay Annual Membership Fees up to but not beyond Effective Date of Termination and shall be released from paying Annual Membership Fees in subsequent years. The provisions of Article 7, Confidentiality, will continue to be binding following termination.

3. Annual Membership Fee

Basic Membership

During the Term, any basic level member ("Basic Member") will provide to University a yearly payment of \$75,000 for its membership in CDSC ("Basic Annual Membership Fee"). From time to time, during the Term, CDSC may increase its membership fees. However, Basic Member's Annual Membership Fee will not be increased during the Term. Any change to Basic Member's Annual Membership Fee will not apply to previous membership periods, and can only be made by written amendment to this Agreement by duly authorized representatives of University and Member.

Gold Membership

During the Term, any gold level member ("Gold Member") will provide to University a yearly payment of \$150,000 for its membership in CDSC ("Gold Annual Membership Fee"). From time to time, during the Term, CDSC may increase its membership fees. However, Gold Member's Annual Membership Fee will not be increased during the Term. Any change to Gold Member's Annual Membership Fee will not apply to previous membership periods, and can only be made by written amendment to this Agreement by duly authorized representatives of University and Member.

The Annual Membership Fee for Member shall be due annually based on the anniversary of the Effective Date. Checks shall be made payable to UC Regents, indicating the purpose of the payment ("CDSC Membership"), should be sent to:

UCLA Engineering
Office of External Affairs
Attn: Brandon Baker, Executive Director
7256 Boelter Hall, Box 951600
Los Angeles, California 90095-1600

Or by wire transfer to the following account:

Bank of America
Client Fulfillment & Service
CA4-704-05-41, Building D
2000 Clayton Road
Concord, California 94520

ABA Routing No.: [REDACTED]
Bank Account Name: UC Regents
Bank Account No: [REDACTED]
Swift Code (for international transfers): [REDACTED]

In addition to the banking information, to ensure that the money is properly routing within the University, Sponsor shall provide their bank with the following information in connection with each wire transfer hereunder:

Purpose of Wire Transfer: CDSC Membership

UCLA Point of Contact: Brandon Baker, Executive Director

Telephone: 1-310-206-5303

Email: bbaker@support.ucla.edu

In the event that Member opts to submit any payment required hereunder via wire transfer, Member shall notify University at least three (3) business days prior to an impending transfer and shall pay all banking fees and/or other costs associated with such transfer.

University will provide an annual financial summary report of expenditures and appropriations of funds to Member.

4. Program Management

- a. CDSC shall be directed by the CDSC management team, consisting of Dr. Jason Cong (director and PI) and 2-3 other faculty members at UCLA ("Management Team") and advised by the CDSC Advisory Board ("Board"). Representation on the Board is limited to two representatives (one primary and one alternate) of each Gold Member.
- b. CDSC intends to use Open Source under the BSD license to disseminate its research results.
- c. Members shall have the opportunity to advise on the research topics, community outreach, and open source management of CDSC through representation on the Board.
- d. Priorities for the use of funds will be set by the Management Team with advisement from the Advisory Board. The Management Team will be the PI and co-PIs for funds managed at UCLA under this agreement.

5. Membership Eligibility and Benefits

- a. All corporations and organizations with interest in CDSC research areas are eligible for membership. The CDSC Management Team may, subject to U.S. and State of California law and University of California policy, change or make exceptions to the eligibility criteria.
- b. Member will receive the following benefits in consideration of its support. These benefits will extend, upon Effective Date of this Agreement through the Term unless terminated earlier, to related companies of Member who agree to be bound by the terms of this Participation Agreement and who relate through at least 50% ownership-in-common with the Member:

All Members

- i. Each Member will receive all new and electronically archived CDSC technical reports, including theses and papers appearing in peer reviewed literature, as they are published, either by electronic means, or upon request, via hardcopy or physical electronic storage media.

- ii. Invitation to attend semi-annual research review meetings to review, assess, critique, and advise on recent, not yet published or publishable, research results.
- iii. The right to use and disclose, subject to University's valid copyright and patent rights, all reports, data, and information made available by CDSC, so long as CDSC is acknowledged as the source of this information, and Confidential Information is protected according to Article 7.
- iv. The opportunity to sponsor and fund separate projects with CDSC researchers after mutual agreement. Any joint or collaborative research conducted between the parties shall be defined and governed by such separate Sponsored Research Agreements. Intellectual property rights to inventions arising under such sponsorship will be defined by such separate agreement.

Gold Members

- i. All of the above rights for all Members.
- ii. Opportunity to influence the activities of CDSC through representation on the Board.
- iii. The opportunity to send a Visiting Scientist ("Visitor") to CDSC for in-residence research sponsored and advised by a specific CDSC researcher at University, with a separate agreement and fees to be negotiated by the site. A Visitor is a full-time employee of the Member, paid by the Member, with health insurance and other benefits provided by the Member, who participates in research projects under the direction of a CDSC principal investigator from University.

6. Confidentiality

- a. Proprietary materials and information will not be exchanged under this Agreement. All information exchanges will be deemed non-confidential. If needed, confidential information may be exchanged under separate a Confidential Disclosure Agreement between applicable parties.

7. Publication

Publications of the consortium are expected to include meeting documentation, interoperability recommendations, summaries of research, etc. Members shall have the right to copyright, publish, disclose, disseminate and use, in whole and in part, any data and information developed under this Agreement.

8. Use of Names

Members agree that they will not use the name of any other Member or its employees in any advertisement, press release or publicity with reference to this Agreement or any product or service resulting from this Agreement, without prior written approval of the other party.

9. Notices

Any notice to be given hereunder will be in writing and sent to authorized institutional representative identified by the party in the signature block.

10. Integration

This Agreement states the entire contract between the parties in respect to the subject matter of the Agreement and supersedes any other written or oral representations, statements, negotiations, or agreements. This Agreement may be modified only by written amendment executed by authorized representatives of both parties. The parties may sign this Agreement in one or more counterparts, each of which constitutes an original and all of which together constitute the Agreement. Facsimile and signatures shall constitute original signatures for all purposes.

IN WITNESS WHEREOF, the parties hereto have caused this Agreement to be executed by their duly authorized representatives.

Miryung-

Is it possible to remove a certain line from the letter that refers to tech transfer in your proposal? The highlighted part needs to be removed:

Huawei technologies makes no claims on the basis of this gift to any ownership or other beneficial interest in any work producing resulting from this gift. Nonetheless, we would appreciate being kept of the progress of the research and Prof Kim's cooperation to tech-transfer her group's research on Systematic Code Change, as outlined in her proposal.

This will raise red flags and we will not be able to process as a gift. They will ask to see your proposal, and if there are any terms that allow for licensing or IP, then it will need to go through TDG.

HUAWEI Payment Notice

This email was sent by system automatically, please don't reply directly.

Dear Regents University of California Los Angeles (UC Regents)(duplicate supplier cancelled,same with C35556)

The payment details we have paid to your bank account ***0103 are as below:

Note:

- 1.The payment reference date listed in the table is Huawei system processing date, normally the fund will reach your account in 1 to 3 days, the exact date depends on the local bank processing cycle.
- 2.If SCS has implemented in your company, for further information, please check in SCS system.
- 3.Please notify your HUAWEI contact to update it in SRM system if have any changes of your company's financial contacts, otherwise you shall bear the resulting losses.

Invoice no.	payment reference date	currency	Payment Amount
00FMYK	2017-12-27	USD	50,000
			Total amount : 50,000

Huawei Technologies Co., Ltd.

HW payment Reference No. : 5020023835(0021)

华为付款通知

此邮件由系统自动发出,请勿直接回复

尊敬的:**Regents University of California Los Angeles (UC Regents)(duplicate supplier cancelled,same with C35556)**

我公司本次支付贵公司 ***0103账户 的付款详细信息如下:

注意:

- 1.表中所列的付款参考日期是华为系统处理日期,一般于1到3工作日到账,具体根据当地银行处理周期而定,请您耐心等待,谢谢您!
- 2.若贵司已使用华为SCS系统,更多付款信息请在SCS系统中查询;
- 3.若贵司财务联系人有变更,请通知您的华为联系人在SRM系统中进行变更,如未及时通知我司变更带来的损失请自行承担。

发票号	参考付款日期	币种	付款金额
00FMYK	2017-12-27	USD	50,000
			总金额: 50,000

Song-Chun,
Did you hear back from Huawei? Did they agree to the letter? I am able to help process through the CS department and then it can be transferred to the account associated with the center on the back end.
I know they had urgency to complete this by the end of the year.

Best,
Blair

Subject: RE: A Research Gift

I still need to figure out if we can push the funding through engineering. Do you know if you have an account with HSSEAS through CS?

The tax thing is strange. It came up when we were working on a gift over \$1M and the lawyers on their end wanted to add something.

I've been back and forth on quite a few Hauwei agreements. I made a few adjustments to the letter I sent earlier. Please see the attached. This letter better encompasses everything that needs to be defined to accept as a gift. They will probably also request an invoice. I've attached a sample. This is what I have used with them in the past.

Also, please note, that since this gift is \$450k, it will need to go to the Vice Chancellor's office for approval.

Hello Prof Zhu-

I am working on a few Huawei gifts this week for the end of the year. We should be able to move forward with accepting this as a gift; however, we need to remove the language about royalty free licensing. Attached is a letter that we are using for another faculty. Huawei has already accepted this language, including their \$1.5M agreement with Jason Cong. If they can modify the letter to be similar to the attached then we should be okay.

Subject: A Research Gift

Amy,

I am talking to a company Huawei LTD, for donating \$450K as a research gift. This is not a contract. The gift letter draft is attached, could you quickly check whether this letter is good for UCLA to accept?

They has a “wish”, not a “term”, that UCLA consider issuing them a rayolty free license for the IP generated under this research, but I am not sure how to handle this.

Please advise.

Many thanks,

Subject: RE: Huawei Technologies (CRM ID 0091819994)

Hi Fides,

To clear things up: There are 2 pledges for Huawei. One for \$450,000(CDSC gold) and one for \$1,500,000 (CDSC platinum).

I just consulted with Blair and we figured out that there is no need to cancel the balance pledge of \$300,000 from the older \$450,000 pledge.

I misunderstood and put the \$150,000 towards the \$1.5M pledge. I need to revise the gift transmittal to put the \$150K against this current \$300K pledge. Do you want me to email you another package or should I re-send a new one and you can cancel this one?

Sorry for the confusion. I will also be submitting an additional gift transmittal for the \$1.5M pledge.

Maria

Hi Maria, please see attached gift that you had submitted for Gift Processing. In trying to apply the gift as payment to the \$1.5 M pledge I also see that there is another open pledge from Huawei to the same fund that also has an installment due for 12/2017 (please see screenshot of pledges below). Does that seem correct? With that additional info can you please confirm that I am applying this payment to the \$1.5 M pledge? I am also copying Blair on this email as I saw that she was one of the contacts when the newer pledge was booked. Blair, would you have any insight on these two open pledges.

Please let me know when you get a chance.

Thanks you,

Center for Domain-Specific Computing Consortium Membership Agreement

This Agreement ("Agreement") is made and entered into by and between The Regents of the University of California on behalf of its Los Angeles campus ("University") and Members identified as signatories to this agreement (hereinafter "Member" or "Members") and is effective as the date of the first signature ("Effective Date"). This Agreement will govern the terms and conditions of Member's membership in the Center for Domain-Specific Computing ("CDSC").

1. Background and Research Areas

To meet ever-increasing computing needs and overcome power density limitations, the computing industry has entered the *era of parallelization*, with tens to hundreds of computing cores integrated into a single processor; and hundreds to thousands of computing servers connected in warehouse-scale data centers. However, such highly parallel, *general-purpose* computing systems still face serious challenges in terms of performance, energy, heat dissipation, space, and cost. In this consortium we look beyond parallelization and focus on *domain-specific customization* as the *next disruptive technology* to bring orders-of-magnitude power-performance efficiency improvement to important application domains. The current research emphasizes on accelerator-rich architectures, from single-chip design, to server node integration, and to data-center level deployment. At the same time, CDSC is developing the automated compilation and runtime software to enable efficient programming and application development on such accelerator-rich architectures.

The broader impact of this consortium will be measured by the new digital revolution enabled by customized computing. We will demonstrate the feasibility and advantages of the proposed research in the domain of healthcare, given its significant impact on the national economy and quality of life issues. In particular, we focus our effort on *revolutionizing the role of medical imaging, computational genomics, and personalized cancer treatment in healthcare*, providing much more cost-efficient, convenient solutions for preventative, diagnostic, and therapeutic procedures to dramatically improve healthcare quality, efficiency, and patient outcomes. The broader impact of this consortium also includes the integration of research and education, exposing graduate, undergraduate, and high school students to the new concepts and research from this project via several new courses jointly developed and shared by researchers in the Center for Domain-Specific Computing (CSDC). Summer research fellowship programs to support high school and undergraduate students will be provided by CSDC. Our goal is to train a new generation of students who are prepared for customized parallelization and computing, and can effectively apply such techniques to many areas of our society, thus furthering the digital revolution. Special efforts are being made to attract underrepresented students at all levels via partnerships with campus organizations focused on diversity, such as the UCLA Center for Excellence in Engineering and Diversity.

2. Term and Termination

This Agreement will remain in effect for three (3) years from the Effective Date ("Term") or until terminated by all Members, whichever occurs first. University may terminate the Agreement at any time with thirty (30) days notice to Members. Any Member may terminate their participation in the CDSC for convenience by providing written notice of such termination to University ("Notice of Termination"). Termination will be effective ("Effective Date of Termination") thirty (30) days from

刘武号

receipt of Notice of Termination. The terminating Member shall pay Annual Membership Fees up to but not beyond Effective Date of Termination and shall be released from paying Annual Membership Fees in subsequent years. The provisions of Article 6, Confidentiality, will continue to be binding following termination.

3. Annual Membership Fee

Basic Membership

During the Term, any basic level member ("Basic Member") will provide to University a yearly payment of \$75,000 for its membership in CDSC ("Basic Annual Membership Fee"). From time to time, during the Term, CDSC may increase its membership fees. However, Basic Member's Annual Membership Fee will not be increased during the Term. Any change to Basic Member's Annual Membership Fee will not apply to previous membership periods, and can only be made by written amendment to this Agreement by duly authorized representatives of University and Member.

Gold Membership

During the Term, any gold level member ("Gold Member") will provide to University a yearly payment of \$150,000 for its membership in CDSC ("Gold Annual Membership Fee"). From time to time, during the Term, CDSC may increase its membership fees. However, Gold Member's Annual Membership Fee will not be increased during the Term. Any change to Gold Member's Annual Membership Fee will not apply to previous membership periods, and can only be made by written amendment to this Agreement by duly authorized representatives of University and Member.

Alternatively, the option of in-kind donations, for the value of Basic or Gold Membership, is available to membership organizations with less than 100 employees in lieu of traditional membership dues. Member will provide a price list of in-kind product value which is due annually based on the anniversary of the Membership Effective Date.

Platinum Membership

During the Term, any platinum level member ("Platinum Member") will provide to University a yearly payment of \$500,000 or higher for its membership in CDSC ("Platinum Annual Membership Fee"). From time to time, during the Term, CDSC may increase its membership fees. However, Platinum Member's Annual Membership Fee will not be increased during the Term. Any change to Platinum Member's Annual Membership Fee will not apply to previous membership periods, and can only be made by written amendment to this Agreement by duly authorized representatives of University and Member.

The initial membership fee is due 30 days from the Effective Date. Effective date is defined as the date member company signs agreement. The Annual Membership Fee for Member shall be due annually based on the anniversary of the Effective Date. Checks shall be made payable to UC Regents, indicating the purpose of the payment ("CDSC Membership"), should be sent to:

UCLA Engineering
Office of External Affairs

Attn: Blair McBirney
Director of Corporate Relations
7256 Boelter Hall, Box 951600
Los Angeles, California 90095-1600

Or by wire transfer to the following account:

Bank of America
Client Fulfillment & Service
CA4-704-05-41, Building D
2000 Clayton Road
Concord, California 94520

ABA Routing No. [REDACTED]
Bank Account Name: UC Regents
Bank Account No: [REDACTED]
Swift Code (for international transfers): [REDACTED]

In addition to the banking information, to ensure that the money is properly routing within the University, Sponsor shall provide their bank with the following information in connection with each wire transfer hereunder:

Purpose of Wire Transfer: CDSC Membership

UCLA Point of Contact: Blair McBirney, Director of Corporate Relations
Email: bmcbirney@support.ucla.edu

In the event that Member opts to submit any payment required hereunder via wire transfer, Member shall notify University at least three (3) business days prior to an impending transfer and shall pay all banking fees and/or other costs associated with such transfer.

University will provide an annual financial summary report of expenditures and appropriations of funds to Member.

All Taxes levied on the University or Huawei shall be borne by either Party respectively in accordance with the applicable tax laws and/or regulations in the People's Republic of China or United States.

If required by the laws of People's Republic of China, Huawei shall have the right to deduct any withholding taxes imposed in the People's Republic of China on any payment to be made by Huawei to University from Consideration on behalf of University. In that case, University shall only be paid by Huawei the balance after such deduction from the Consideration to University's performance of the obligations under this Agreement. Upon University's request, Huawei shall submit to University official taxes receipts as such.

Notwithstanding number the above, the total membership amount is 500,000 USD (including relevant China withholding taxes), the payment to be received by University is 500,000 USD. If it is

necessary to adjust total payment amount due to China withholding taxes, amount changes resulting from China tax law and regulation variation in future, University shall cooperate to enter into supplementary agreement as requested by Huawei.

4. Program Management

- a. CDSC shall be directed by the CDSC management team, consisting of Dr. Jason Cong (director and PI) and 2-3 other faculty members at UCLA ("Management Team") and advised by the CDSC Advisory Board ("Board"). Representation on the Board is limited to two representatives (one primary and one alternate) of each Gold Member.
- b. CDSC intends to use Open Source under the BSD license to disseminate its research results.
- c. Members shall have the opportunity to advise on the research topics, community outreach, and open source management of CDSC through representation on the Board.
- d. Priorities for the use of funds will be set by the Management Team with advisement from the Advisory Board. The Management Team will be the PI and co-PIs for funds managed at UCLA under this agreement.

5. Membership Eligibility and Benefits

- a. All corporations and organizations with interest in CDSC research areas are eligible for membership. The CDSC Management Team may, subject to U.S. and State of California law and University of California policy, change or make exceptions to the eligibility criteria.
- b. Member will receive the following benefits in consideration of its support. These benefits will extend, upon Effective Date of this Agreement through the Term unless terminated earlier, to related companies of Member who agree to be bound by the terms of this Participation Agreement and who relate through at least 50% ownership-in-common with the Member:

All Members

- i. Each Member will receive all new and electronically archived CDSC technical reports, including theses and papers appearing in peer reviewed literature, as they are published, either by electronic means, or upon request, via hardcopy or physical electronic storage media.
- ii. Invitation to attend semi-annual research review meetings to review, assess, critique, and advise on recent, not yet published or publishable, research results.
- iii. The right to use and disclose, subject to University's valid copyright and patent rights, all reports, data, and information made available by CDSC, so long as CDSC is acknowledged as the source of this information, and Confidential Information is protected according to Article 7.
- iv. The opportunity to sponsor and fund separate projects with CDSC researchers after mutual agreement. Any joint or collaborative research conducted between the parties shall be defined and governed by such separate Sponsored Research Agreements. Intellectual property rights to inventions arising under such sponsorship will be defined by such separate agreement.

Gold Members

- i. All of the above rights for all Members.
- ii. Opportunity to influence the activities of CDSC through representation on the Corporate Advisory Board.
- iii. The opportunity to send a Visiting Scientist ("Visitor") to CDSC for in-residence research sponsored and advised by a specific CDSC researcher at University, with a separate agreement and fees to be negotiated by the site. A Visitor is a full-time employee of the Member, paid by the Member, with health insurance and other benefits provided by the Member, who participates in research projects under the direction of a CDSC principal investigator from University.

Platinum Members

- i. All of the above rights for all Gold Members.
- ii. The opportunity to influence the activities of CDSC through representation on the Executive Committee of the Center. For instance, research directions shall be jointly discussed and determined annually by the Member and CDSC before each yearly membership fee payment.
- iii. The opportunity to serve as co-primary investigator on a jointly agreed upon research project.
- iv. The opportunity to send 2 additional Visiting Scientist, for a total of 3, ("Visitor") to CDSC for in-residence research sponsored and advised by a specific CDSC researcher at University, with a separate agreement and fees to be negotiated by the site. A Visitor is a full-time employee of the Member, paid by the Member, with health insurance and other benefits provided by the Member, who participates in research projects under the direction of a CDSC principal investigator from University.

12/12/17
FOR CONTRACT ONLY

6. Confidentiality

- a. Proprietary materials and information will not be exchanged under this Agreement. All information exchanges will be deemed non-confidential. If needed, confidential information may be exchanged under separate a Confidential Disclosure Agreement between applicable parties.

7. Publication

Publications of the consortium are expected to include meeting documentation, interoperability recommendations, summaries of research, etc. Members shall have the right to copyright, publish, disclose, disseminate and use, in whole and in part, any data and information developed under this Agreement.

8. Use of Names

Members agree that they will not use the name of any other Member or its employees in any advertisement, press release or publicity with reference to this Agreement or any product or service resulting from this Agreement, without prior written approval of the other party.

21

9. Notices

Any notice to be given hereunder will be in writing and sent to authorized institutional representative identified by the party in the signature block.

10. Integration

This Agreement states the entire contract between the parties in respect to the subject matter of the Agreement and supersedes any other written or oral representations, statements, negotiations, or agreements. This Agreement may be modified only by written amendment executed by authorized representatives of both parties. The parties may sign this Agreement in one or more counterparts, each of which constitutes an original and all of which together constitute the Agreement. Facsimile and signatures shall constitute original signatures for all purposes.

IN WITNESS WHEREOF, the parties hereto have caused this Agreement to be executed by their duly authorized representatives.

1. Information Regarding Funding Entity

(Use a separate Form 700-U for each funding entity.)

Name of Entity:

Huawei Technologies Co., Ltd.

Address of Entity:

Bantian Longgang Base, Shenzhen 518129, P.R. China

Principal Business of Entity:

Research & Development

Amount of Funding: \$ 150,000 - 149,990

Estimated ☐ Actual ☒

2. Type of Statement (Check at least one box)

☐ Initial (for new funding)

Date of initial funding: ____/____/____

☒ Interim (for renewed funding)
 Funding was renewed on: 11/01/17

3. Filer Information

A. Are you a director, officer, partner, trustee, consultant, employee, or do you hold a position of management in the entity listed in Part 1? No ☒ Yes ☐

Title: _____

B. Do you, your spouse or registered domestic partner, or your dependent children have an investment of \$2,000 or more in the entity listed in Part 1 above? No ☒ Yes ☐ - value is:

☐ \$2,000 - \$10,000 ☐ \$10,001 - \$100,000
☐ \$100,001 - \$1,000,000 ☐ Exceeds \$1,000,000

Date Disposed: ____/____/____, if applicable

C. Have you received income of \$500 or more from the entity listed in Part 1 during the reporting period? No ☒ Yes ☐ - amount is:

☐ \$500 - \$1,000 ☐ \$1,001 - \$10,000
☐ \$10,001 - \$100,000 ☐ Exceeds \$100,000

Was this income received through your spouse or registered domestic partner? ☐ No ☐ Yes

3. Filer Information - Cont.

D. Have you received loans from the entity in Part 1 for which the balance exceeded \$500 during the reporting period? No ☒ Yes ☐ - highest balance:

☐ \$500 - \$1,000 ☐ \$1,001 - \$10,000
☐ \$10,001 - \$100,000 ☐ Exceeded \$100,000

If you checked "yes," was the loan:

☐ Secured ☐ Unsecured Interest rate: ____%

Was the loan entirely repaid within the last 12 months?

☐ No ☐ Yes

E. Have you received gifts from the entity listed in Part 1 within the last 12 months valued at \$50 or more? No ☒ Yes ☐ - describe below.

Description: _____

Value: \$_____ Date Received: ____/____/____

F. Has the entity in Part 1 paid for your travel during the reporting period? No ☐ Yes ☒ - describe below.

Type of Payment: (check one) ☒ Gift ☐ Income

Amt: \$ N/A date(s): 05/15/17 05/16/17

Hi Brandon & Jason,

For your update, I already informed Georgia Tech about the process of how to get the funding to them and Lee mentioned to include the Substitute W-9 form for their primary address and TIN # info. I got a call from Georgia Tech people today, they're asking for more info regarding the Huawei gift funding before they can complete the form. I'm not sure how much info I can share about the agreement. They said there are some issues that they are concerned about such as export control issue since Huawei is an international company so they need to do more research on their side before they can complete and send me back the form. They also mentioned that if this is a gift funding, why is there restriction to use it to support Prof. Sarkar's graduate student for joint research, there should be no restriction?

Brandon, could you give Carlos a call to give him more details about the Huawei's agreement & explain to him further about this gift funding? Here's his info:

Carlos Batist, Financial Administrator

Cc: "McBirney, Blair" <bmcbirney@support.ucla.edu>

Hi Brandon,

Yes, correct. Since this is gift funding and not contract/grant, I don't believe we

issue as a subaward. If the amount is over \$5,000 CS will need to issue a requisition to Georgia Tech. Alex, please make sure that Georgia Tech is in BruinBuy with a valid address. You may consider coding the order as 3455 Consultants/Professional Svcs-Non-Univ. Attach applicable documents in the requisition. Once the req is approved, Georgia Tech can issue an invoice.

Let me know if you have any other questions.

Thanks,

Lee

It's a good idea to have a kick-off meeting.
 I'll am on an oversea trip until Nov. 15. I suggest that we schedule it on

Nov. 16 (THurs.) 5-6pm PDT. Otherwise, Nov. 20 (Mon) 5-6pm PDT is another possibility.

Hello Prof. Cong,

Greetings on completing agreement signature by both. Thanks all of you involved in this collaboration.

As we talked before, there are four research topics related to heterogeneous computing proposed by IT and Center SW teams, they are listed below. I will send you the docs later.

- 1) GATK FPGA-based accelerator-----from IT team
- 2) Distributed Interconnection Heterogeneous Computing Acceleration-----from IT team
- 3) Research on Auto program performance tuner and DSL for FPGA programming-----from Center SW team
- 4) Video stream Heterogeneous Computing Acceleration -----from Center SW team

We finished the proposals and look forward to discuss with you. A conference call is preferred for kick off meeting.

Prof, would you and your team be available in recent time such as This Weds, Thurs, or Fri ? and what's time slots do you preferred, morning or evening (Beijing time)? Thank you.

BRs,
Steven

 主题: Re: Appointment for kick off meeting

It's a good idea to have a kick-off meeting.
 I'll am on an overseas trip until Nov. 15. I suggest that we schedule it on Nov. 16 (THurs.) 5-6pm PDT. Otherwise, Nov. 20 (Mon) 5-6pm PDT is another possibility.

-Jason

Jason Cong, PhD
 Distinguished Chancellor's Professor
 UCLA Department of Computer Science (with joint appointment in Electrical Engineering)
<http://vast.cs.ucla.edu/people/faculty/jason-cong>
 Director, Center for Domain-Specific Computing
www.cdsc.ucla.edu

On Nov 5, 2017, at 10:50 PM, Shixiaozhong <shixiaozhong@huawei.com> wrote:

Hello Prof. Cong,

Greetings on completing agreement signature by both. Thanks all of you involved in this collaboration.

As we talked before, there are four research topics related to heterogeneous computing proposed by IT and Center SW teams, they are listed below. I will send you the docs later.

- 1) GATK FPGA-based accelerator-----from IT team
- 2) Distributed Interconnection Heterogeneous Computing Acceleration-----from IT team
- 3) Research on Auto program performance tuner and DSL for FPGA programming-----from Center SW team
- 4) Video steam Heterogeneous Computing Acceleration -----from Center SW team

We finished the proposals and look forward to discuss with you. A conference call is preferred for kick off meeting.

Prof, would you and your team be available in recent time such as This Weds, Thurs, or Fri ? and what's time slots do you preferred, morning or evening (Beijing time)? Thank you.

BRs,
Steven

NACRO News

November 2017

Another Exciting Year with NACRO, from the Co-Presidents

Jessica Watts, Senior Director of Corporate Relations at UT Dallas
 Mona Ellerbrock, Director of Corporate Relations at UC Davis

We are thrilled to serve as co-Presidents as NACRO wraps up its tenth year of existence. In just a decade, the organization has grown to include 600 members, and annual conference attendance has grown from just 20 participants in 2007 to over 360 in 2017. Every year we are increasing the number of institutions represented in NACRO, growing from just a handful of universities to roughly 300 in 2017. With rapid growth comes the welcomed challenge of meeting the needs of our membership which come from diverse universities and, more recently, companies. [Read more here.](#)

NACRO Corporate Engagement BOOTCAMP

Join us on January 22 for the NACRO Corporate Engagement BOOTCAMP. Held at the University of Houston, the BOOTCAMP guides attendees through the corporate engagement cycle.

With speakers on both the philanthropic and research side, this workshop focuses on the NACRO "blueprint" for holistic university corporate relations. The day incorporates two of the best parts of NACRO: peer learning and networking with corporate relations colleagues from other universities. Corporate Relations Officers from 10 different universities will share their best practices in the areas of corporate outreach, closing the deal and stewarding corporate partners.

The agenda, speakers and logistics information, including hotel and airport information can be found on the [NACRO website](#).

Registration is open November 1, 2017- January 15, 2018 and is \$250/person for NACRO members and \$300 for non-members. [TO REGISTER, CLICK HERE.](#)

You need to be logged in to the NACRO web site to access the Midwinter Meeting site and the registration page.

Announcing the 2018 NACRO Conference: July 24-26, 2018 in Atlanta, Georgia

The NACRO Conference Programming Committee is pleased to officially announce the dates for the next NACRO Annual Conference. The conference will be in Atlanta, Georgia on July 24 -26, 2018. The conference planning committee met in October in Atlanta as they work hard to prepare an amazing conference for our members. Exact location details are forthcoming but please hold the dates and plan to visit Atlanta next July! Questions? Feel free to email us at conference@nacroonline.org

Subject: RE: Huawei Technologies Chancellor's Acknowledgment
Date: Monday, November 06, 2017 1:48:05 PM

Hi again,

Here's the draft of the letter for your review. Please let me know if you have any changes.

Thanks,

Alana

Mr. Haibo Lin
Huawei Technologies Co., Ltd.
Bantian, Longgang District
Shenzhen 518129
China

Dear Mr. Lin:

Thank you very much for Huawei's strong support of the UCLA Henry Samueli School of Engineering and Applied Science. I am especially grateful for the company's remarkable recent commitment to benefit our Center for Domain-Specific Computing. We take pride in everything Professor Jason Cong and his colleagues are doing to envision and create the technology of the future. I deeply appreciate your partnership, which will enable our scholars to continue making tremendous advances in their pioneering work.

Huawei's philanthropy is a wonderful complement to its extraordinary history of technological innovation. On behalf of all of us at UCLA, I extend my profound gratitude.

Sincerely,

Gene D. Block
Chancellor

Hi Blair,

Should someone at Huawei Technologies receive an acknowledgment letter from the chancellor for their recent \$1.5M pledge to CDSC? We sent a letter to this address for the original \$450,000 pledge in April 2016:

Liang Peng
Senior Director
Huawei Technologies
2330 Central Expressway
Santa Clara, CA 95050

Is that still the correct contact?

Thanks,

Alana

Hi Steven,

Thank you for sending over the information. We'd like to again thank everyone at Huawei, including yourself, Mr. Haibo Lin and Mr. Denny Chendun who helped with this collaboration.

Dean Murthy left yesterday for a two-week university business trip , so we were unable to catch her in time to reflect the name you provided below. I've attached the letter she sent to your attention for reference and the hard copy will be arriving shortly. I do want to confirm the correct person for the letter from the chancellor? We received the email below and also the attached email with two different names listed; who would be the best person to address?

Best,
 William Courtney

The hard copy with wet signature was FedEx on Friday so it will arrive before the October deadline. Please use tracking number below: **788243723440**

Thank you for all your efforts to execute this agreement. We are pleased to welcome Huawei to the CDSC and look forward to a fruitful collaboration.

**Best
Blair**

Hi Blair,

Thanks for your effort.

We do need the hard copy of writing signed agreement before Oct 30 night, and please note that the hard copy is scanned from the document you'll send it later, to make sure they are same.

Please keep the signature date as Oct 26. Thanks a lot.

BRs,
Steven

Subject: [Huawei Gift] Award Deposit Account + Gift Categorization?

Dear Maria,

Could you please check whether the following bank information is correct for depositing a gift fund? My contact at Huawei is asking to confirm how to deposit the fund. Could you also read the attached gift letter and confirm whether it will be sufficient to classify this project as a gift award not a sponsored project? Thanks!

Bank (If you have any bank questions, contact the relevant financial interface staff.)

* Country	United States		
Select Existing Bank	<input checked="" type="radio"/>		
Create New Bank	<input type="radio"/>		
* Bank Name	BANK OF AMERICA, NA	Bank Number	
* Branch Name	026009593	Branch Number	026009593
SWIFT Code(BIC)		Branch Type	ABA
Alternate Branch Name		Address Line1	
Province		Address Line2

Description		Tax Payer ID (CNPJ)	

Dr. Miryung Kim
Department of Computer Science
4532H Boelter Hall
Los Angeles, CA 90095
University of California, Los Angeles

Dear Prof. Kim,

As a University of California, Los Angeles (UCLA) support, Huawei Technologies is pleased to make a pledge in the amount of \$ 50,000 to the Regents of the University of California on behalf of UCLA. This pledge is intended to support the "Systematic Code Change" project led by Prof. Miryung Kim in the Department of Computer Science.

The total payment \$ 50,000 shall be made within 15 days of the end of gift fund.

All Taxes levied on the Supplier or the Customer shall be borne by either Party respectively in accordance with the applicable tax laws and/or regulations in the Territory. If required by the laws of People's Republic of China, Huawei shall have the right to deduct any taxes imposed in the People's Republic of China on any payment to be made by Huawei to Partner from Consideration on behalf of Partner. In that case, Partner shall only be paid by Huawei the balance after such deduction from the Consideration to Partner's performance of the obligations under this Agreement. Upon Partner's request, Huawei shall submit to Partner official taxes receipts as such.

Huawei technologies makes no claims on the basis of this gift to any ownership or other beneficial interest in any work producing resulting from this gift. Nonetheless, we would appreciate being kept of the progress of the research and Prof Kim's cooperation to tech-transfer her group's research on Systematic Code Change, as outlined in her proposal.

We would appreciate your return of the copy of this gift letter as an acknowledgement of understanding. It gives us satisfaction to know that we are playing a vital role in advancing UCLA's mission of research, education, and public service. We look forward to seeing the progress of your research.

Sincerely,
Authorized signatory: Wu Yanhui

Hi Blair,

Thank you very much. Please send it to Mr. Denny who put his immense enthusiasm and effort on this collaboration both internally and externally, to reach this cooperation.
 Here is the address:

Denny. Chendun
 Huawei Mansion, No. 3 Xinx Rd. Shangdi, Haidian District, Beijing, China, 100085
 Moblie: [REDACTED]

BTW, I have received the express and caught the deadline, thank you again.

BRs,
Steven

Hi Steven-

My dean and chancellor would like to send a personal acknowledgement to thank Huawei for the recent agreement. Who is the appropriate recipient on your side? Also, can you please confirm the best address to send? Should it go to the address from the invoice below, or a different office?

Huawei Technologies Co. Ltd.
 Chengdu Research Institute,U9
 Huawei Chengdu Base, No.1899
 Xiyuan Avenue
 Hi-tech Western District Chengdu, 611731
 P.R.China
